Warning	E-E-A-T: Experience eeat_experience	Moderate: The page mentions Dr. Shivani Atri Singh as the practitioner and includes basic practice information, but lacks detailed case studies, before/after photos on this specific page, or patient testimonials that would demonstrate hands-on experience with dermal fillers. The content is primarily educational rather than experiential.	Strengthen Experience signals on this page.

Status	Check	Message	Recommendation
Warning	E-E-A-T: Expertise eeat_expertise	Moderate: The page provides medically accurate information about different types of dermal fillers (hyaluronic acid, calcium hydroxylapatite, etc.) and their uses, showing competent knowledge. However, it lacks depth in technical details, treatment protocols, or professional credentials specific to the practitioner that would demonstrate advanced expertise.	Strengthen Expertise signals on this page.
Fail	E-E-A-T: Authoritativeness eeat_authority	Weak: While the site has structured data markup and social media presence, there's limited evidence of external recognition, medical certifications, professional affiliations, or authoritative third-party references that would establish strong industry authority. The content appears self-published without external validation.	Authoritativeness is the most impactful E-E-A-T weakness here — address first.
Warning	E-E-A-T: Trustworthiness eeat_trust	Moderate: The page includes contact information, business hours, physical address, and proper schema markup which aids transparency. However, there are no visible patient reviews on the page itself, limited privacy policy information visible, and the medical claims lack citations or sources that would enhance trustworthiness for a medical procedure.	Strengthen Trustworthiness signals on this page.
